Why Dalat?

Eternal Spring

Unique cool climate in SEA.

Rising Star

Explosive growth in KR tourists.

Experiential Hub

Coffee tours, Canyoning, festivals,
beyond typical resort stays.

The Hidden Risks

RISK 01

Complex climate

"4 seasons in 1 day", sudden change weather can be confuse tourists.

RISK 02

Low-information

High demand vs little information on the Internet.

RISK 03

Fragmented UX

Switching between Weather, Maps, and Transport apps.

User Research

"Sudden rain ruined my plans,
I had **no idea where to go** nearby."

User A: Tourist, 3 days trip

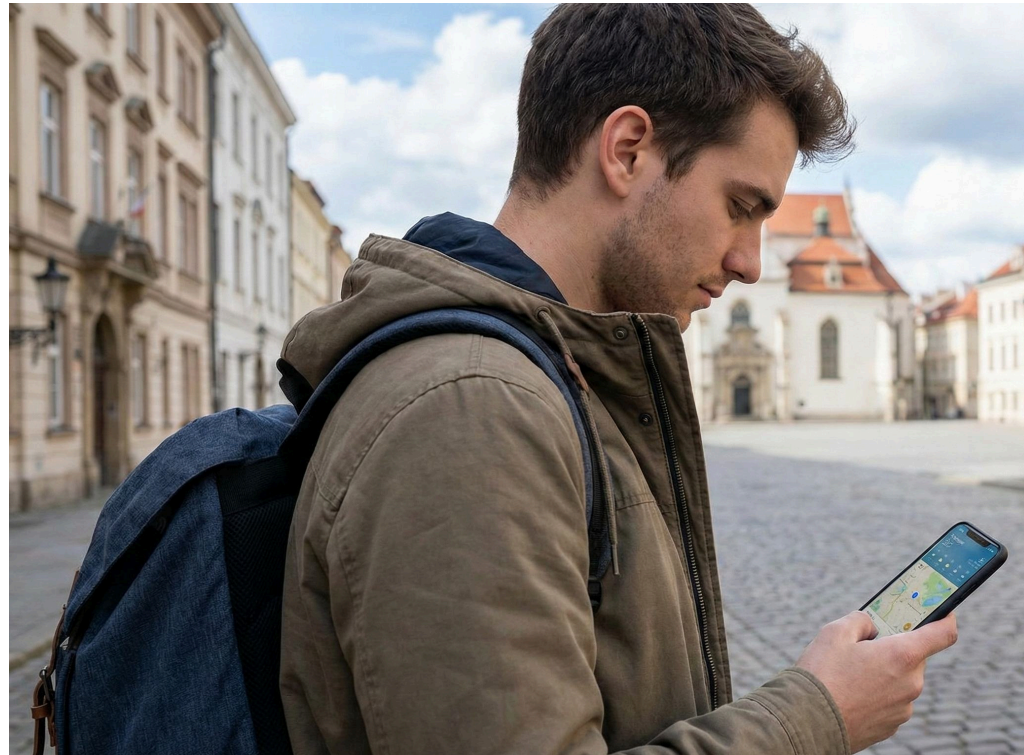

"Google Maps is static.
It doesn't tell me **if the road is foggy**
right now."

User B: Motorbike Traveler

KEY FINDING

Travelers feel anxious due to the **unpredictability** of weather and **disconnected** information

Persona

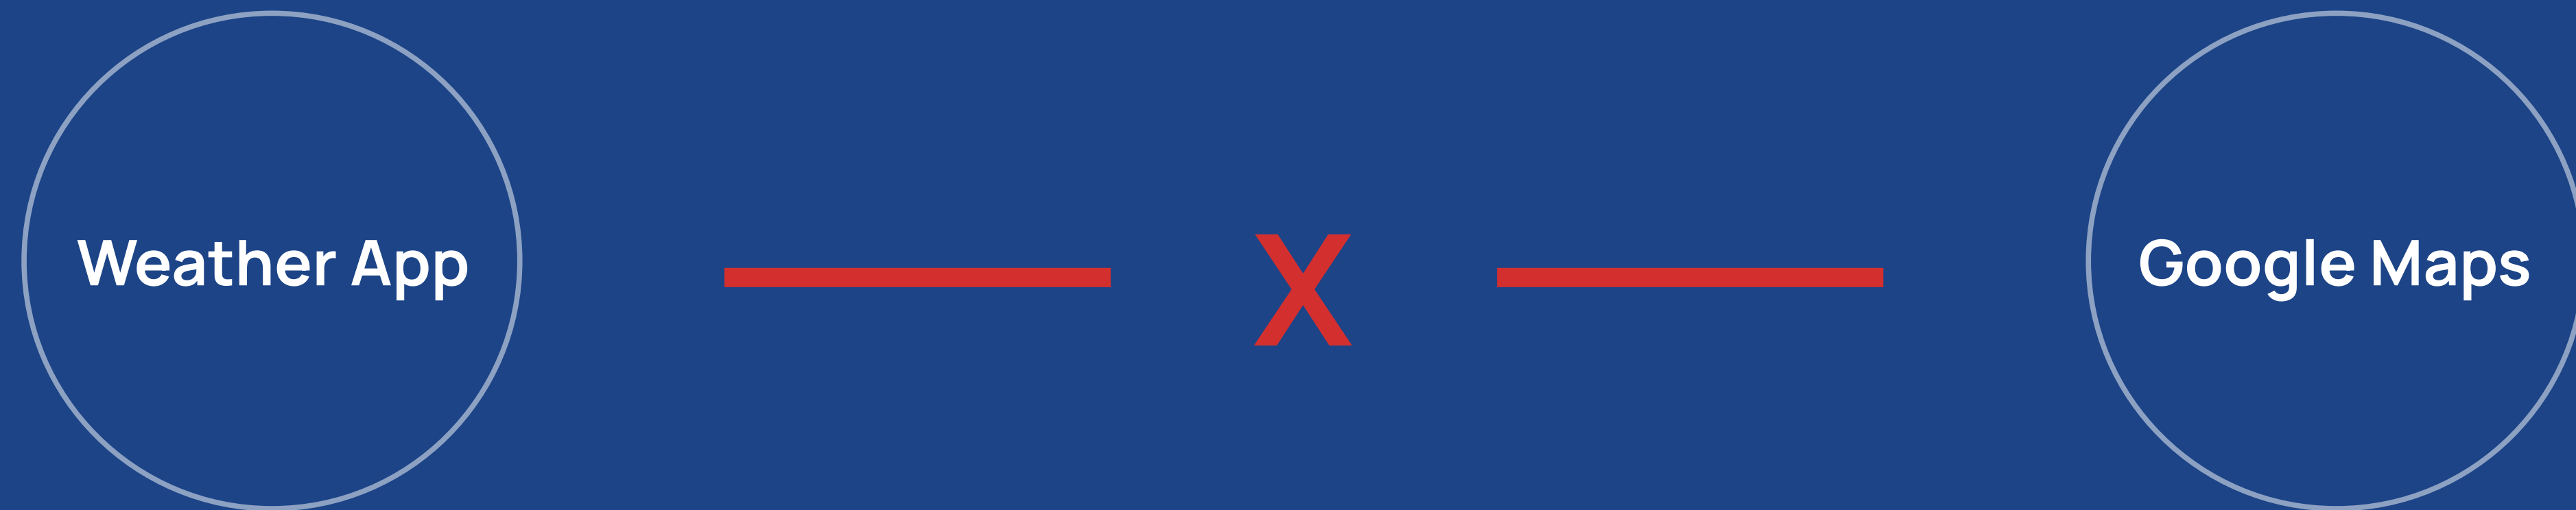

Lucas (28)

Short-term Traveler

**"I don't need a map.
I need a Curator
that knows the Weather."**

- Fragmented Apps (Weather + Map)
- Unpredictable Microclimate
- Wasted Travel Time

INFORMATION DISCONNECTED

Users have to check **TWO** apps to make **ONE** decision.

Solution Features
